Extinguishing Media:	Not combustible however, if material is involved in a fire use fine water spray, normal foam, or dry agent (carbon dioxide, dry chemical powder)
Hazards from combustion:	Under fire conditions the product may emit toxic fumes including carbon monoxide and carbon dioxide, as well as traces of polymer monomers.
Product Specific Hazards:	This product is not combustible. However, under fire conditions, following evaporation of the aqueous component, the organic components may decompose and/or burn.
Precautions in connection with fire:	Fire fighters should wear self-contained breathing apparatus and full PPE to prevent exposure to vapours, fumes and products of combustion. Water spray may be used to cool down heat-exposed containers.

6. ACCIDENTAL RELEASE MEASURES

Emergency Procedures:	Avoid accidents, clean up immediately. Wear appropriate PPE to minimise exposure. Absorb spilt product with the use of inert absorbent material, sand or earth. Collect and place in labelled containers. Dispose as per local, state and federal government regulations.
